JOIN OUR COMMUNITY!

- Looking for a quick answer from a peer?
- Searching for proven tools and templates?
- Seeking the power of connection with others who work in your sector, your country, your role?

NGO and INGO professionals at more than 270 social good organizations come together through membership with Humentum for networking, training, resources, and community.

The benefits of membership are for your entire organization. From the financial team to the program team, our membership meets you where you are, using the power of community to take you farther. And don't worry about how to navigate all these great features. Every member organization works with a dedicated Member Relations Manager, who connects you to what you need.

There's a lot of information you can get that's not textbook information. You gain information from practitioners who have experiential knowledge. The group is very willing to share. Usually when I ask a question in the forum I get 10 responses in a day. They're excited to help you in the [Humentum Connect] forum.
